The Little Boots.

Only two little boots by the fire so bright,
Only two little stockings to mend to-night;
The one who owns them is snug in bed,
Where the moonbeams dance on his curly head.

These little boots gave me trouble to day,
Bringing in mud from out door play;
Scattered pebbles over the floor,
Tracking dirt in at the great hall door.

These little boots gave me sorrow to day,
Straying from mother's sight away;
Climbing trees and wading streams,
Chasing shadows and sunny beams.

These little stockings, so worn and gray,
Have these tiny treasures caused trouble to-day?
Ah! indeed they have, in racing about,
In joining plays and merry shout.

Alas, I have had trouble to day,
And yet would I give these treasures away?
Would I have the places empty to night
Of the little boots with toes so bright?

Ah me! my very heart will break
If away from my sight these boots you take;
My home would be dreary, my young heart sad,
And there would be nothing to make me glad.

So there's only two little boots so bright,
Only two little stockings to mend to night,
Only one little flower, so feeble and slight,
Only one to smile with so silver a light.

There was a time when four were there,
When four little feet peped over my chair,
Four pair of boots so shining and bright,
And four pairs of stockings so pure and white.

Hung near the fire, and chimney, tail;
For the feet that were then were dimpled and small,
But my children are gone, their spirits have fled,
And they are sleeping undisturbed with the dead.

I sadly miss those three loved ones
That are resting to right in their silent tombs;
I miss their shouts and merry play,
For three little forms are not here to-day.

(From the New York Evening Post.)

ROBERT BONNER'S STABLES.

The main stable, which contains within its walls six almost priceless horses—the fastest trotters, probably, at this moment in the whole world—is an unpretending building, of pressed brick externally, standing in a small court yard on West Twenty-seventh street, between Ninth and Tenth Avenues. Within this building is divided into wagon houses and stables, harness room, hay and grain loft. The wagon room is also used as the washroom, one side of it being paved with flag stones, graded to drain properly, and furnished with the necessary apparatus thus enabling the groom to cleanse the vehicles under shelter, and also economizing space.

The stable proper, opened by a broad archway from the wagon room, is divided by a passageway about six feet broad, on one side of which are four roomy stalls, and upon the other two large "loose boxes," are enclosed with solid wooden walls 6 or 8 feet high, and separated from each other by a similar partition.

The floors of the stalls are made of Georgia pine, to the point occupied by the fore feet of the horse; the remaining portion is well pounded dirt, which is thought softer and more wholesome for the horse to rest upon with his front feet. The floors of the boxes are of Georgia pine, over which is placed a layer of narrow plank, set slightly apart, to facilitate drainage and give an elastic surface. Both stalls and boxes are, when in use, kept plentifully strewn with fresh straw. The drainage is taken through a gate fixed in the centre of the stall or box, through which the fluids run off under the stable to the street sewer.

HOW THE HORSES ARE FED.

There are no racks in these enclosures, the horses eating their grain from a simple box or trough set in one corner, and picking up their hay from the ground in front of them, where it is thrown. Mr. Bonner thinks that nature placed the horse's food at his feet, and he means to follow nature as far as he can. Another simple contrivance is a long wooden roller inserted horizontally into the partitions between the stalls.—Horses are fond of rubbing themselves against partitions, and frequently thus rub off the hair and injure their coats. When Mr. Bonner's horses rub themselves, these rollers turn as they rub, and so there is no friction.

Behind the main stable is another building containing three "boxes" similar to the two in front of the building.

There is no attempt at display or ornament in any part of this establishment; everything is plain, solid, and for use and comfort.

Finally, around the main building is a soft dirt path, upon which the horses are regularly exercised every day at a walk, by a boy whose express and only duty is to ride them carefully in this ever-recurring round. Spite of this monotonous occupation, the boy seems healthy and cheerful. Besides this youth there are three men employed in the stables, one of whom is specially devoted to the famous "Dexter."

NEWPORT DAILY NEWS

MONDAY January 27, 1868

VANDERBILT'S PETS.—The *New York* correspondent of the *Chicago Journal*, writes: John Morrissey continues to operate on the street, doing business through three separate brokers' houses. You will remember that he was at one time on intimate business terms with Commodore Vanderbilt. He, unfortunately for himself, got caught in a net which the Commodore had spread for some other parties, and lost all the property he had—between seventy and eighty thousand dollars. He went and told the Commodore of the fact, when the latter smiled and replied, "Were you caught in that? I thought you were too sharp for that. However, I will see that you make up your loss." He very soon gave Morrissey a "point" which enabled the latter to recover the amount sunk and a few thousand additional. I repeat the story as related by Morrissey.

John Tobin, who through the Commodore has amassed a million and a half of money, and is one of the king stock operators, was just before the war a gate-keeper at one of the ferries. The Commodore has a habit of taking a fancy to individuals far below him and feathering their nests for them. His latest favorite is said to be his horse-trainer.

The express train for Boston on the Boston and Albany road, on Wednesday afternoon, met with an accident while passing the ledge about two miles from Worcester. An axle-tree on the tender of the locomotive broke, suddenly stopping the train and breaking up the rails for a short distance. The accident caused a detention of upwards of three hours, and the train did not reach Boston until 7 o'clock. On the train were seven prisoners from Lenox, en route for the State prison, Charlestown, all of whom were safely conveyed to that safe institution. One of them was the notorious "General" Humphries, the confidence man, who has a term of ten years to serve for his misdemeanors.

Speaking of the recent heavy robbery of the great oil prince at Titusville, the Erie Dispatch says the feeling against the robbers throughout the oil regions is greatly mollified by the fact that Mr. Bennehoff was not only a miser who had his hoard of wealth, but because of the productiveness of his oil farm he had the power—which he exercised—of becoming an absorber of immense amounts of money, all of which was withdrawn from circulation as soon as it passed into his hands. Regrets are freely expressed because the robbers did not get the other safe open, so as to get the money in circulation now that it is so much needed.

The Yarmouth Register speaks of a great destruction of wharf property at Harwich, by the ice on Tuesday morning. The Commercial wharves were wholly demolished and carried away, together with about $2000 worth of salt and a large quantity of empty fish barrels. The bridge appertaining to the Long wharf and Marsh Bank wharf were also destroyed by the ice, but the main buildings were left standing. The wind at the time was blowing a gale in a direction to take them into the Vineyard Sound, so that there is no hope of their recovery.

Wm. Deaton, the father of Capt. Spencer Deaton, who was executed as a spy by the rebels, has just received the arrears of his son's pay. Capt. Deaton will be remembered as the East Tennessee scout, and the bold and skillful pilot under whose direction and guidance so many refugees found their way out of the rebel lines into those of the Union army. After many successful trips across the mountains he was captured, imprisoned in Richmond for several months, and finally hanged as a spy.

The whisky interest (those in favor and those opposed to a reduction of the tax) are said to be in Washington in strong force and working with great energy in the endeavor to win Congressmen to their respective views.

M. du Chaillu, the traveler in a recent lecture, stated that while sojourning in the Ishogo country, Africa, he had several offers of marriage, and one kind chief, to avoid jealousy wanted him to marry all the marriageable women of the tribe, numbering about 850.

The State of Iowa is clear of debt. Alone of all the States, she does not owe a dollar. This happy condition is due to the wise, and economical administration which the people of Iowa have insisted on, and which their State officers have been able to give them. It is, indeed, an enviable situation, which other States groaning under debt and taxation may look at with an admiring eye.

Mr. James E. Mills, a geologist of repute, declares Long Island, New York, to be the result of glacial action, the glacier moving seaward having crowded up the soft strata of which the island is composed.—He also believes that at the time of this action the land was sinking, that it has since been entirely submerged and subsequently rose again.

Queen Emma—the hem of whose garment some of our superserviceable dunkies a ruggled to touch—has retired to Kocina, an old royal castle of Hawaii. This is the latest and most stirring intelligence from Honolulu. The telegram adds that Emma intends remaining some time in her new residence.

A Louisville paper says the girls of the Blue Grass region consider it a breach of hospitality to fase an offer of marriage.—It instances the case of a young lady who was engaged to fifty officers, from Second Lieutenant to Brigadier, while Gilmore was in those parts, and who finally married a farmer.

Lady Esmonde, who has just died in Waterford county, Ireland, had a funeral procession two miles long.

ACCIDENTS.—Mrs. Sally, wife of General Goff, when on her way to church last Sunday morning, slipped on the ice, fell and fractured a small bone of the leg. Dr. Otis Bullock was called, adjusted the bone, and Mrs. Goff is fast recovering.

Miss Mary B. Luther on Wednesday evening, while going up stairs, made a misstep, fell and broke a leg. This is the second time the same leg has been broken, and with a natural lameness makes it serious.

FIRE IN WOONSOCKET.—The house on Main street, Woonsocket, owned by Joseph S. Aldrich, and occupied by Amos Sherman, Jr. principal of the High School, took fire on Friday morning at about eleven o'clock, and the upper portion was badly burned out. The furniture was mostly saved. The building was insured in the Providence Mutual Insurance office for $2,000. Mr. John Burnham, formerly post master, was severly injured by being thrown down by a cart to which was attached a hose carriage. The Rev. J. E. Dockrey was one of the first at the fire, and aided in raising a ladder, upon which he mounted to the upper part of the building. Too many persons rushing upon the ladder, it broke, and precipitated the reverend gentleman to the ground, breaking his leg, as we are informed, although we hope this may not prove true. He was, however, so severely injured that it was necessary to carry him home in a sleigh.—*Ex.*

AGRICULTURE IN AFRICA.—The work of reclaiming the Great Desert of Sahara, in Africa, is steadily going on in Algeria under the patronage of Napoleon III, and is accomplished by boring artesian wells. About one hundred wells are now flowing reclaiming the desert wherever they are, and making the barren waste bloom into fertile gardens. In the district of Oued Rir, stretching far southward into the desert, there are now thirty five wells, around which 2,000 gardens have been formed, and 140,000 date trees planted. The conquest of the desert is steadily pushed with almost universal success by four military boring brigades, thoroughly equipped and provided with the necessary implements.

CHEAP LANDS IN MISSISSIPPI.—The Holly Springs (Miss.) Reporter says that valuable tracts of improved land have been sold in that neighborhood recently by the sheriff of Marshall county, at from sixty cents to one dollar and twenty-five cents per acre. Many fine farms have been sold at private sale for from two to three dollars per acre, and tracts of land which, before the war, would have sold for from two to three dollars per acre, cannot now be sold for enough to pay the taxes.

An author of some repute has recently prescribed as a cure for the habits of smoking, the swallowing of a stiff glass of whiskey and water whenever an inclination to smoke manifests itself. Total abstinence people, of course, cannot take advantage of this method, and incorrigible smokers who also like their beer would be in danger of incurring an attack of delirium tremens were they to follow this learned pundit's prescription.

The citizens of New Bedford have secured Mr. Dickens for one of his public readings to be given in that city on the 27th of March next.

Mr. John Gladding, a venerable citizen of Providence, died in that city, Friday, at the age of 86. He had lived in his house for more than eighty years, during sixty of which he had occupied one room.

About Home.

RELIGIOUS.—The Rev. Mr. Hancock, yesterday afternoon, at the Central Baptist Church, preached an able discourse, upon the subject, "Jesus Christ the only true foundation of the Church Temporal." His text was 1st Corinthians, 3d chapter and 11th verse—"For other foundation can no man lay than that is laid, which is Jesus Christ."

On next Sunday afternoon this gentleman will preach a discourse upon the "Church Spiritual" and "Jesus Christ as its head."

WE HAVE RECEIVED a copy of the third pastoral letter written by the Rev. James Peter Ludlow, formerly of this city, to the members of the Tabernacle Baptist Church, in San Francisco, California. It indicates a prosperous condition of the Church and a successful ministry on the part of the young evangelist. Mr. Ludlow went out from the Central Baptist Church of this city some three years ago as a young minister just ordained to begin his life-work. Having taken himself a wife (Miss Ellen Lovie, of this city,) he embarked for California as his field of labor. There he became the pastor of a newly organized Church, which has struggled successfully under his charge, through all the trials and difficulties incident to a new born undertaking, until they have built and paid for a handsome church edifice and, as will be seen by the extracts from the letter, have made various improvements and contributed, besides, to the Christian Charities of the day.

This letter was addressed by Mr. Ludlow to his Church as a new year's greeting.—The following extracts will be of interest to his numerous friends in Newport and will afford gratifying evidence of the success of another of our adopted sons in a distant field of labor. He says:

"Our increase has been eleven by baptism, by experience one, by letter eight, total twenty. Three have been dismissed to sister churches, and one has died, leaving our total membership seventy-four, a net gain of sixteen. Our resident membership is sixty-seven.

During the year we have raised about four thousand dollars.

Twenty-one dollars have been devoted to Foreign Missions, eighty-two to Home Missions, and nineteen to Ministerial Education. You have made your Pastor and one of your Deacons Life members of the State Convention. To accommodate the increase of our Sabbath School, an infant room has been built, at a cost of six hundred dollars. This addition measures 20 x 36 feet, and includes a smaller room 10 x 20 feet, designed for the uses of Committees, and for the Pastor's Study. An organ has been set up, which for the sweetness of its tone is not excelled by any in the city; and a beautiful chandelier has been suspended in the center of the audience room, as a Christmas present to the Church. Our Ladies' Aid Society has neatly carpeted the floors throughout. The house has been repainted, and the lot enclosed with a substantial fence.

In speaking of these improvements during the past year, it is a source of no small gratification to your Pastor that we have paid for these things by direct subscriptions from our church and congregation, and have in no case felt it necessary nor expedient to resort to any other measures to raise the means. The sentiment against all such extraneous efforts I believe to be general among us, and I may express the hope that it will yet be universal.

Nor will my heart allow me to omit to state, in this connexion, that your affectionate interest in your Pastor's welfare has led you, altogether unsolicited, to raise his salary, and to present him with a valuable Policy of Insurance upon his life. These acts of your regard are appreciated, far more than the limits of this letter will allow me to express.

In thus reviewing our temporal prosperity, it will not be out of place for me to add for our encouragement, that there has been a marked improvement in our locality during the past twelve months. Within an area of four blocks on either side, more than two hundred thousand dollars have been spent in permanent improvements.—The population is increasing rapidly, and the value of our property has augmented fifty per cent.

In spiritual matters, no less than temporal, God has been very gracious to us. Although there has been no marked revival, we have been permitted to welcome new members nearly every month. Our additions have been a little more than one-third of our total membership last year. Our Sabbath School has largely increased, and has now an average attendance of one hundred and twenty-five. The monthly concerts of our School have added greatly to the interest, and of late a spirit of inquiry has prevailed among the children. Four young ladies, members of the School, were baptised into our fellowship last Sabbath evening, and there are others who give evidence of a change of heart."

The last page of the letter contains a Church Directory, giving the names of all the members and their place of residence. The letter itself abounds in words of kindly greeting and counsel and breathes a fervent spirit devoted to the work whereunto he has been called. The little church has not quite become a *thousand* under his ministry, but it has grown in influence and numbers until it is recognized as a power in the community in which it is located. May the great Shepherd and Bishop of souls, continue to prosper and bless our Christian brother in his labors until the "little one" shall verily become a thousand."

YOUNG MEN'S CHRISTIAN ASSOCIATION.—Members and others interested in the Association will please bear in mind the regular meeting this evening at the Rooms on Thames St. Business of importance will be enacted, providing for a wider basis of operations than it has had thus far. We are pleased to observe this spirit of liberality manifested by its members and hope to see it made what it should be, an honor to the city.

SNOW.—We are to day having another fall of snow. How many we have had thus far, this winter, we know not, but probably some curious statistician will be ready with the figures at the proper time. We hope he will inform the public of the result of his observations.

MR EDITOR:—One of the orders issued over daily to the "Officer of the Day," by Gen. Sherman, at Fort Adams, is to fire a "charbette gun," as soon as a fire is discovered in Newport by any sentinel on post. The gun fired on Friday, 24th inst., at 2 a. m., was from the Fort in obedience to that order.

MESSRS. EDITORS:—"P. H. H." asks for sound reasonings for the maintenance of my assertion of the *mis* doings of Congress. It seems to me they must be patent to every one not blindly following the lead of the radical republican party.

Is it just to place the negro race over the white, and keep it there by military force? Is it not "trampling upon the Constitution" or violating its provisions in taking upon itself powers expressly given to the President by that instrument?—*vide* the Tenure of Office bill and the appointment of military chiefs over the different departments. Is it not "gagging the Supreme Court," when it says—to meet a particular case—that it shall require two thirds of that body to declare that act unconstitutional, and finally that that court *shall not* declare *any* of their acts upon reconstruction, unconstitutional?

I do not propose to go into a lengthy argument upon the subject. There are "reasonings" enough to be found, not only in opposition journals, but in the columns of the dominant party organs, to show how unjust and impolitic have been its acts. "One who runs may read."

We have had a gigantic war, but we have had now nearly three years of peace. When in the history of the world, did half that time expire that a country had not returned to its original quiet and prosperity; except it be some poor over-ridden country, like Mexico.

I will remind "P. H. H." of the late fall elections, the results of which he seems to have forgotten. Can he not find "reasonings" there? The justice of the acts of Congress has been denied by the people who sent a part of that body there, and in the coming November, they, and more with them, will speak in thunder tones against the rule or ruin policy of its ministrations.

Citizens, you need not fear the return to African slavery in this country, but have a care lest yourselves, white men, do not lose the precious gifts of liberty and justice, transmitted to you by your sires. Guard it, not only from foes without, but from those who would despoil our only guide—the Constitution. Show them next November that it is not safe in their hands. It has been mutilated now. Rally ere it is too late to prevent its total destruction. H.

[For the Daily News.]

MR. EDITOR:—It is a wonder to me, why it is, that people are not considerate enough to put lights in the windows of their dwellings, on the streets, through which the engines are to pass, in case of fire. It would be a public benefit, especially on such nights as the one on which the late fire on Broad street occurred, when it was very dark and slippery. A word to the wise is sufficient.

THE year 1868 will unquestionably be one pregnant with events of paramount moment to the American people. It will dawn upon a Union nominally "one and indivisible," but practically disorganized, so far as a just Administration of our system and theory of government is concerned, by partisan mistake and selfishness. It will find the business of the country, in a great measure, paralyzed; the finances in an unsettled and precarious condition, and almost every general interest in an unsatisfactory state. During the year all these vital matters must receive attention, and the people will be called upon to settle them. The great Presidential struggle, which is to determine whether or not the Union is to be really and practically restored—whether educated whites, or ignorant blacks are to rule the southern portion of our country—is to be fought; in short, the question as to whether Republicanism in America is to live or die, will be decided during the coming year.

At such a time, every man feels the need of a *Live Newspaper*—a newspaper from which he can gather information as to matters of general interest; of the drift of public opinion; of the views of leading publicists, and of the general news of the day. Such a paper is

THE MORNING HERALD,

To which the publishers take pride and pleasure in directing the attention of the public. Each issue contains from ten to twelve columns of reading matter, including editorials upon matters of general interest, telegrams from all parts of the world, local intelligence, and other interesting matter going to make up a first-class daily paper. THE MORNING HERALD has a large and daily increasing circulation. Indeed, a circumstance no less truthful than gratifying to us, is the fact that the rapid strides in circulation which THE HERALD has made, is without parallel in the history of Rhode Island journalism. To advertisers, as well as others, this fact will be significant.

The Republican Herald

is a large sized sheet of thirty-two columns, but a small proportion of which is devoted to advertising purposes, the great part of the paper being devoted to a digest of the news of the week, to matters of State interest, to discussions of political topics, to interesting miscellany, choice poetry, sketches, etc., etc. The circulation of THE REPUBLICAN HERALD is larger than that of the combined weekly newspapers of this city, and is equalled by that of but few papers in New England. Our subscription list is being enlarged at the rate of one hundred per week.

THE MORNING HERALD

Is published every morning (Sundays excepted) at $8 per annum. Single Copies Four Cents.

THE REPUBLICAN HERALD,

Is published every Saturday, at $2,50 per annum. An extra copy will be given to the organizer of every Club of TEN or more.

No variation from above rates in any case.

TWO DAYS ONLY—WEDNESDAY & THURSDAY, Feb. 5 & 6, 1868,

For the sale of their Justly

Celebrated Perfected
SPECTACLES

Too much cannot be said as to their SUPERIORITY over the ordinary glasses worn. There is NO GLIMMERING, WAVERING OF THE SIGHT, DIZZINESS, or other unpleasant sensation, but on the contrary, from the peculiar construction of the lenses, they are *soothing* and *pleasant*, causing a *feeling of relief* to the wearer, and

Producing a Clear and Distinct Vision,
As in the NATURAL HEALTHY SIGHT. They are the only Spectacles.

The ability of the members of this firm to adapt Spectacles to all sights, *even when others have failed*, is too well known to need comment.

They will have with them a large assortment of Gold, Silver, and Steel SPECTACLES; also, Gold, Silver, Steel and Shell EYE GLASSES, of the finest description and finish.

The GLASSES are ground under their own supervision at their manufactory at Hartford, and persons may rest assured that every care will be taken in the judicious selection of their Spectacles.

Persons needing the aid of Spectacles or suffering from WEAK or DEFECTIVE VISION should not fail to call.

☞ Remember the date of visit. We wish it distinctly understood that

CHRONIC DISEASES, SCROFULA, ULCERS, &c.

It is well known that the benefits derived from drinking of the Congress, Saratoga, and other celebrated Springs is principally owing to the Iodine they contain.

Dr. Anders' Iodine Water

contains Iodine in the same pure state that it is found in these spring waters, but over 500 per cent. more in quantity, containing as it does 1 1-4 grains to each full ounce, dissolved in pure water, without a solvent, a discovery long sought for in this country and Europe, and is the best remedy in the world for Scrofula, Cancers, Salt Rheum, Ulcers, and all Chronic Diseases. Circulars free.

Dr. WISTAR'S BALSAM OF WILD CHERRY.

Where this article is known it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, diseases of the throat, Chest, and Lungs, as well as that most dreaded of all diseases, Consumption, which high medical authority has pronounced to be a curable disease. Those who have used this remedy know its value; those who have not, have but to make a single trial to be satisfied that of all medicines it is the most efficacious.

A REMARKABLE CASE.

From Mr. John B. Darling, Watchmaker, Pomfret, Connecticut.

"I have used Dr Wistar's Balsam of Wild Cherry in my family for several years, and always with the great benefit to myself. My wife being of delicate habit, has always been troubled with a hard, dry, hacking cough whenever taking cold, and could obtain no relief from the various remedies she employed until she used Wistar's Balsam, the effect of which was astonishing. A year ago a young man in this place was taken with bleeding at the lungs, with a severe cough, and was given over to die by our best physicians, it being evident to all that his disease was Consumption. Upon hearing of his case my wife sent him a bottle of the Balsam, which he took, and soon, to the astonishment of his friends, he was at his accustomed occupation. In other cases we have administered the Balsam to the Consumptive, and always with the best of success. These statements are simple facts, which can be vouched for at any time by calling on me at my store."

None genuine unless signed "I. BUTTS" on the wrapper. Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed dale chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful house-wife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Sole agent in Newport.

Alpine Bitters.

THE ALPINE BITTERS, imported exclusively from Switzerland, is made from Roots and Herbs, harmless in themselves, but marvelous in their strengthening properties. Their recuperative qualities are unrivalled, and are especially efficacious in all cases of Female Debility, arising from any cause whatsoever; also for Dyspepsia, Indigestion, Headache, Nervousness, Loss of Appetite, and as a positive preventive of Chills and Fever.

The ALPINE BITTERS have a soothing and restoring influence upon the system, especially upon the digestive organs, and is highly recommended to ladies and even children in delicate health, and to all who are averse to taking wine, poisonous whiskeys and other stimulants.

The rapidly increasing demand for this universal popular European Tonic and ANTI-DYSPEPTIC DRINK, has induced the undersigned to make such arrangements abroad as will enable them constantly to supply all orders with which they may hereafter be favored.

Take Notice.

Sheriff's Office: Newport, January 25, 1868.

Newport City and County, ss.

WHEREAS, by the Public Laws of this State, relating to the sale of Intoxicating Liquors, entitled Chapter 470, in the Sixth Section thereof, it is made the especial duty of the Sheriffs of the several Counties to enforce the laws, but especially to "use their utmost endeavors to repress and prevent crime by the suppression of unlicensed liquor shops"—and whereas there is probable reason to believe that certain persons are engaged in the sale of Intoxicating liquors without being licensed so to do; I have deemed it best to issue this notice and to publish the names and places of such as are licensed to sell under the above named Act.

The following persons have been licensed by the Board of Aldermen of the City of Newport, between the dates of May 7th, 1867 and December 3, 1867, the date of the last granted license—the licenses granted under the former law having now all expired:—

Stephen A. Newton, Thames street.
Nathaniel S. Vare, Long wharf.
Samuel Ardern, Thames street.
Thomas Read, Thames street.
Thomas Burkinshaw, Thames street.
Robert S. Barker, Thames street.
William A. Franklin, Clarendon House, E. Touro street.

William Mason, Thames street.
John Burkinshaw, Bannisters wharf.

The Town Council of the Town of Tiverton, have granted but one license, and that is to the proprietor of the Lawton House at the Stone Bridge.

The Town Councils of Middletown, Portsmouth, and Little Compton, have granted no license.

It will be seen, thus, that the above named persons are all those who are licensed to sell intoxicating liquors thoughout the City and County of Newport—all other persons engaged in the traffic in intoxicating liquors, are doing so in direct violation of law—and I, therefore, hereby give notice to all such persons that whenever probable evidence shall come, or be brought to my knowledge, of the illegal sale of intoxicating liquors, I shall proceed to prosecute them and every of them, as is made my duty imperatively, under the law in such case made and provided—and I invite the co-operation of all persons interested in the suppression of illegal sales, and that they aid me in the prosecution and conviction of all persons engaged therein, by affording me whatever evidence in the Premises may come within their knowledge.

PRINCIPAL AND INTEREST

IN GOLD COIN.

THE BEST INVESTMENT

For Surplus Capital.

The attention of Investors, Trustees, Executors, and others desiring an unusually safe, reliable, and profitable form of permanent investment, is called to the advantage and advantages of the

Central Pacific Railroad

First Mortgage Bonds.

THE CENTRAL PACIFIC RAILROAD COMPANY offer for sale their FIRST MORTGAGE THIRTY-YEAR SIX PER CENT. GOLD BONDS, and submit to Investors the following, among other obvious considerations; and invite the comparison with the merits and excellences of any class of corporate securities:

I. These bonds are based upon the most vital and valuable part of the Grand National Pacific Railroad, soon to become the main channel of communication on the continent.

II. The local settlement, and the business therefrom is remarkably large and profitable, and must constantly increase.

III. The hardest part of the road is now built, and the remainder will be rapidly carried forward over the Salt Lake Plains.

IV. The greater part of the means necessary to build the road is furnished by the U. S. Government upon a subsidiary lien.

V. The State and chief cities of California have contributed upward of $3,000,000 to the enterprise, without lien.

VI. The grant of land is selling at an early day to prove of far greater market value than the total of the First Mortgage bonds issued upon the road and equipments.

VII. This Road lies altogether among the gold and silver producing regions, and its revenues are received in coin.

VIII. The management of this Company has been distinguished for prudence and economy; and the surplus earnings, after payment of expenses and interest, are devoted to construction purposes.

IX. The interest liabilities of the Company upon the portion now in operation are less than a third the net earnings.

X. Both *principal and interest are payable* in GOLD, under special provisions of both National and State enactment.

The bonds are in sums of $1,000 each, with semi-annual gold coupons attached, payable in January and July, and are offered for sale at 95 per cent. of their par value and accrued interest from Jan. 1 added, in currency.

At this time they yield nearly

Nine per Cent. upon the Investment.

These Bonds bid fair to attain the most prominent position among the non-speculative investments of the country, and will be actively dealt in at the money centers in Europe.

Holders of Government Securities have an opportunity of exchanging them for Central Pacific Bonds, bearing an equal rate of interest, with the principal similarly secured, and of realizing a profit of ten to fifteen per cent. in addition.

Orders sent with the funds through responsible Banks or Express Companies will receive prompt attention. Bonds sent by return Express, to any address in the United States, at our cost. Information, Descriptive Pamphlets, Maps, &c., furnished on application at the office of the Railroad Company,

Something New.

The Great American Tea Company Outdone.

W. & P. BRYER,

No. 15 Broad Street,

MAKE the following proposition:—They will put up at the market price one hundred pound papers of English Breakfast Oolong and Hyson Teas, such as they are now retailing, for one dollar per pound, and deliver the same on the 20th of September at the residences of purchasers. In every tenth pound will be enclosed a one dollar greenback, so that the purchaser will get his tea for nothing. By this arrangement no one will pay above the regular price, so that there is no possible loss. As will be seen, the tea is sold on the average at a deduction of ten per cent., or at cost.

WHOLESALE PRICE,

which is simply what it proposed to be done.

We are only enabled to do this by our connection with an extensive wholesale tea store in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned in exchange for any other kind or quality in the store. The whole thing is to be done on perfectly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of packages are not sold at the day of delivery the proportionate number will be disposed of according to the above terms.

These are not a cheap tea provided for the occasion, but a regular standard article. Other grades may hereafter be sold in the same way. Now is the time to send in your orders.

Watches for the Million!

ARRANDALE & CO'S GREAT WATCH CLUB.

Everybody needs a good watch, and all should buy it at the lowest possible price; a horde of dealers, knowing this have contrived various ingenious devices to get people's money, and then either fail to send a watch, or send one that is worthless as a chronometer. ARRANDALE & CO. have now perfected arrangements by which, for the small sum of $10, a good and reliable watch may be obtained. They have formed a GREAT WATCH CLUB on the following plan. Certificates containing the numbers of all the watches named in our wholesale list (which is sent to all applicants) are mixed up, enclosed in envelopes, and sold for 25 cents each. Every certificate is warranted to be for a watch, and it will be seen on reference to the list, none are of less value than Ten Dollars, while some are worth $200. We undertake to send any watch drawn whatever may be its value for $10, and in order that everyone may absolutely depend upon getting a first-class timekeeper, we guarantee that every purchaser of One Dollar's worth of certificates shall receive at least one for watch No. 802 on our wholesale list, cost price, which is a first-class patent lever, a handsome and reliable watch, fine sterling silver hunting case, and usually sold for $15. You will certainly get such a watch, and, besides, you may get a Gold Chronometer worth $200. We sell the certificates as follows: One for 25 cents; Three for 50 cents; Six for $1; and Twenty for $3. To those sending $1, we will send a handsome chain gratis. To those sending $2 we will send a Gold Chain warranted not to tarnish in 20 years. Parties getting up larger clubs will receive liberal presents, particulars of which may be learned on application. As it is our intention to do a strictly honorable business, and do insure our customers from possibility of loss, we will send one watch, if desired, without money, instructing the Express agent to collect only on delivery. If we are desired to forward watches by mail, the money must be sent to us by Bank Draft or Post Office Order, and it will then be at our risk. We will then register the package at our post office, and if lost will replace it free of charge.—If any watch sent is not approved, it may be returned and the money will be refunded. The reputation of our firm, which has been established for the years, and is well known in every part of the country, we trust will be deemed a sufficient guarantee that we will faithfully perform all we promise to do.

PROMINENT CHARACTERISTICS.

I.—They are Instructive.

"As purely literary works, these historical romances possess a high degree of merit. They read like genuine histories."—*Catholic World.*

"They are correct descriptions of the countries and the people described."—*Herald.*

II.—They are Entertaining.

"We regard these books as among the best and most entertaining novels of the day."—*Springfield Republican.*

"The reader is at once fascinated and held spellbound until the volume is completed."—*Free Press.*

"There is no dull chapter in it."—*Utica Herald.*

III.—They are Mirrors of the Times.

"No one can peruse them without conceding the author's great skill in grasping and delineating the characters which figure conspicuously in them.

"The study which enables the author to delineate so accurately the emotions and incentives to action which moved men and women of a past age must be a rich one."—*Times.*

"Mühlbach's writing, and Louisa Muhlbach shows in all other works a perfection which carries the reader into the very presence of the characters represented."—*Syracuse Journal.*

IV.—They are Historically Correct.

"Historically correct, and as entertaining as many of the volumes of Sir Walter Scott."—*Prov. Herald.*

"Louisa Muhlbach must have carefully and diligently studied the secret histories of the times and countries of which she writes, and her task is done well and effectively."—*Worcester Spy.*

"No Historical Novelist has labored so faithfully and successfully to reproduce a complete picture of past times and events."—*Utica Herald.*

V.—They are Original.

"It has agreeably surprised readers to find a new writer with such constructive genius and knowledge of character as Louisa Muhlbach possesses."—*Public Ledger.*

"Each succeeding novel adds to Mrs. Mühlbach's reputation as a writer of historic fiction."—*N. Y. Times.*

VI.—They are full of Imagination.

"She is not only the skilful joiner, but a skillful artizan."—*Christian Witness.*

"There is seldom any straining after effect, but it is really wonderful how Madame Mundt manages to sustain and increase the interest to the end."—*City Item.*

"The word-painting of the authoress is much more effective than the best efforts of the engraver."—*Illinois State Register.*

VII.—They Contain Anecdotes of Courts.

"Scottish history offered no fresher and more romantic material to the magic working hand of Sir Walter Scott than she finds in the annals of the German courts."—*Evening Gazette.*

"They are not to be found anywhere in human annals, material, such magnificent, such superabundant materials for romance, as clog the chronicles of the Prussian and Austrian courts of the 18th century. By their dress, their manners, their mode of thought, their language, they are almost as much separated from us as if they had lived one thousand years ago."—*Observer.*

VIII.—They tell about Emperors, Kings, and Queens.

"We learn from her not only how Frederick William and Frederick the Great, Joseph the Second, Voltaire, Beaucan, Baron Trenck, the Empress Catherine, walked and talked in their grand robes, but how they powdered their hair, flirted, and took tea."—*Register.*

"The choice of her subjects exhibits her genius.—She takes the time of Frederick the Great, Joseph the Second, for example, and upon the background of facts which the chronicles of the periods afford, she embroiders the bright and sombre colors, the light and shade of her fiction, with the skill of a romantic artist."—*The Eagle.*

IX.—The Style is Interesting.

"The style of this writer for vivacity, perspicuity, and elegance, is something greatly to be commended. It is free from imitations, mannerisms, and tricks of every kind."—*The Argus.*

"The translations do justice to the lively, piquant style of the original; and the story is full of movement and crowded with instructive and entertaining incident."—*The Chicago Post.*

"The interest of the book does not depend upon the characters nor its incidents, nor even its charming style, but in its general harmony of composition."—*Day Book.*

X.—Everybody is Reading them.

"Our people seem to have stopped reading French novels, and English works are complained of as dull. Miss Muhlbach precisely supplies the public want.

"The novels of Clara Mundt are being read by every one."—*Times.*

"Mühlbach's novels have a world-wide reputation, and are read with avidity, as fast as issued from the press."—*Springfield Republican.*

"They are obtaining a wide and deserved popularity in this country."—*State Journal.*

Oxygenized Air,

A CURE FOR

CATARRH

AND DISEASES OF THE THROAT AND LUNGS,

Applied by

DR. C. L. BLOOD,

No. 9 Montgomery Place,

BOSTON, MASS.

CHRONIC CATARRH.

Why entertain this loathsome disease when relief can be obtained? We meet those every day who are suffering from Catarrh to such an extent, that the Air Passages in the head are in a partly decomposed condition.—the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and of pity to those with whom they associate.

Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is invariably caused by humoral or inflammatory blood, by which the mucous membrane is made sore or indamed, producing a copious effusion of viscid matter. If it be produced by Scrofula in the blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the Bronchial tubes into the air vesicles, and such is the excoriating, or scalding property of the matter, its contact with the delicate linings of the vesicles at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.

Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation,—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from these diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a full description of these diseases.

Out of the many thousands of testimonials received we publish the following:

DR. C. L. BLOOD,—

DEAR SIR:—I desire to give you my testimony regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. It has cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and Consumption in the advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred on our suffering race, and hope the day is not far distant when every intelligent physician will adopt your system in the treatment of all forms of chronic affections.

Fraternally yours,

L. M. LEE, M. D.
No. 192 Westminster Street, Providence.

DR. C. L. BLOOD,—

MY DEAR SIR:—I have tested your remedy, "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so much so, that I feel the wonderful power to arrest the progress of the above named diseases, that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.

Respectfully yours,

REV. R. TOMLINSON.

A Library of Universal Information,

THE NEW

American Cyclopædia;

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE.

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA

AIDED BY A NUMBER OF THE PERSONS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE.

In 16 large volumes, 8vo.

700 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it far outstrips even the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing apt approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one does read, every one that mingles in society, is constantly meeting with allusions to subjects on which he feels and desires further information.—In every vocation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but certain information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is preeminently the work for our century and generation. This is the age of steam. So much time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, worth in itself for purposes of reference at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man, the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

Registering all the Important Events of Each Year—Valuable as a Work of Reference.

"It is an enterprise of immense value to the public, and ought to be in every library, public and private, as an invaluable book of reference."—*Albany and Troy Times, Albany, N. Y.*

"We can recommend it conscientiously as the most complete Cyclopædia to all who would have an accurate and reliable history of contemporary events close at hand and as a safe work of reference."—*Evening Traveller.*

"It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events, too numerous to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*

540 MILES

OF THE

Union Pacific Railroad,

Running West from Omaha

ACROSS THE CONTINENT

ARE NOW COMPLETED,

THE TRACK BEING LAID AND TRAINS RUNNING

Within Ten Miles of the Summit

OF THE ROCKY MOUNTAINS.

The remaining ten miles will be finished as soon as the weather permits the roadbed to be sufficiently packed to receive the rails. The work continues to be pushed forward in the rock cuttings on the western slope with unabated energy, and a much larger force will be employed during the current year than ever before. The prospect that the whole

Grand Line to the Pacific

WILL BE COMPLETED IN 1870,

was never better. The means so far provided for construction have proved ample, and there is no lack of funds for the most vigorous prosecution of the enterprise. These means are divided into four classes:

I.—UNITED STATES BONDS,

Having thirty years to run, and bearing six per cent. currency interest, at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these Bonds is paid by the United States Government, which also pays the Company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the Company's credit, and forms a sinking fund which may finally discharge the whole amount of this Debt.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, and *no more, and only as the road progresses.* The Trustees for the Bondholders, are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of the U. S. House of Representatives, who are responsible for the delivery of these Bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company have a land grant or absolute donation from the Government of 12
